Microsoft 365 Messaging

About Exambible

Your Partner of IT Exam

Found in 1998

Exambible is a company specialized on providing high quality IT exam practice study materials, especially Cisco CCNA, CCDA, CCNP, CCIE, Checkpoint CCSE, CompTIA A+, Network+ certification practice exams and so on. We guarantee that the candidates will not only pass any IT exam at the first attempt but also get profound understanding about the certificates they have got. There are so many alike companies in this industry, however, Exambible has its unique advantages that other companies could not achieve.

Our Advances

* 99.9% Uptime

    All examinations will be up to date.

* 24/7 Quality Support

    We will provide service round the clock.

* 100% Pass Rate

    Our guarantee that you will pass the exam.

* Unique Gurantee

    If you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

NEW QUESTION 1
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that uses a third-party email hygiene system named Service1. Service1 blocks all encrypted email.
All external email is routed through Service1 by using a connector.
Users classify email by using sensitivity labels. Emails classified as Secret are encrypted automatically. You need to ensure that the users can send emails classified as Secret to external recipients.
Which two items should you create? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. a remote domain
B. a connector
C. a data loss prevention (DLP) policy
D. a mail flow rule
E. a label policy

Answer: BD

Explanation:
Use an additional Connector and a Mail Flow Rule to bypass the third-party email hygiene system for emails that have the Secret sensitivity label.
Emails with the sensitivity label will use the new connector. All other emails will use the existing connector. Reference:
https://docs.microsoft.com/en-us/exchange/mail-flow-best-practices/use-connectors-to-configure-mail-flow/con

NEW QUESTION 2
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that contains three Azure Active Directory (Azure AD) security groups named Administrators, Managers, and Marketing. The tenant contains the users shown in the following table.

Name	Group membership
User1	Managers
User2	Marketing
User3	Administrators
User4	None

The tenant contains the resources shown in the following table.

Name	Type
ConferenceRoom1	Room
ConferenceRoom2	Room
Projector1	Equipment

ConferenceRoom1 has he following policy.

```
PS C:\> get-calendarprocessing "ConferenceRoom1"|fl Allb*,allr*,bookinp*,req*,res*
AllBookInPolicy       : False
AllRequestOutOfPolicy : False
AllRequestInPolicy    : False
BookInPolicy          : {/o=ExchangeLabs/ou=Exchange Administrative Group
                        (FYDIBOHF23SPDLT)/cn=Recipients/cn=7fddfdd211974ea68d22dae2c891db02-Managers}
RequestOutOfPolicy    : {}
RequestInPolicy       : {/o=ExchangeLabs/ou=Exchange Administrative Group
                        (FYDIBOHF23SPDLT)/cn=Recipients/cn=03a5a93a90ad4296907830a3ec1a8f94-User2}
ResourceDelegates     : {User4}
```

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Statements	Yes	No
User1 can book ConferenceRoom1 automatically without the approval of User4.	○	○
User2 can book ConferenceRoom1 automatically without the approval of User4.	○	○
User4 can book ConferenceRoom1 pending approval from User3.	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Yes
The BookInPolicy allows the Managers group. User1 is in the Managers group so User 1 can book ConferenceRoom1 automatically without the approval of User4.
Box 2: No
The BookInPolicy allows the Managers group. User2 is not in the Managers group so User 2 cannot book ConferenceRoom1 automatically without the approval of User4.
Box 3: No
The RequestInPolicy does not include User4. Therefore, User3 is not allowed to request to book the meeting room either with or without approval.
Reference:
https://docs.microsoft.com/en-us/powershell/module/exchange/set-calendarprocessing?view=exchange-ps

NEW QUESTION 3
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Server 2019 hybrid deployment. All user mailboxes are hosted in Microsoft 365. All outbound SMTP email is routed through the on-premises Exchange organization.
A corporate security policy requires that you must prevent credit card numbers from being sent to internet recipients by using email.
You need to configure the deployment to meet the security policy requirement. Solution: From Microsoft 365, you create a data loss prevention (DLP) policy. Does this meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/compliance/data-loss-prevention-policies?view=o365-worldwid

NEW QUESTION 4
- (Exam Topic 5)
You manage an Exchange Online tenant.
You plan to migrate on-premises Microsoft Exchange Server mailboxes by using a cutover migration.
You need to grant the required permissions to the migration administrator account to complete the migration. The solution must use the principle of least privilege.
Which three permissions should you grant? Each correct answer presents a complete solution NOTE: Each correct selection is worth one point.

A. the FullAccess permission on each on-premises mailbox and the WriteProperty permission to modify the TargetAddress property of the on-premises user account
B. the Receive As permission on the on-premises mailbox database that stores the user mailboxes and the WriteProperty permission to modify the TargetAddress property of the on-premises user account
C. Domain Admins group member in Active Directory Domain Services (AD DS) of the on-premises Exchange organization
D. the FullAccess permission on each on-premises mailbox
E. the Receive As permission on the on-premises mailbox database that stores the user mailboxes

Answer: CDE

Explanation:
https://docs.microsoft.com/en-us/exchange/mailbox-migration/assign-permissions-for-migration

NEW QUESTION 5
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant.
Users report that legitimate email messages are delivered to their Junk Email folder.
You plan to use the Microsoft Remote Connectivity Analyzer to identify the cause of the issue. Which test should you run?

A. Outlook Connectivity
B. Inbound SMTP Email
C. Outbound SMTP Email
D. Message Analyzer

Answer: D

NEW QUESTION 6
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that contains a user named User1. User1 has a mobile device. You need to enable Exchange ActiveSync logging for User1 and retrieve the log files.
Which two Exchange Online PowerShell cmdlets should you use? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Get-ActiveSyncDevice
B. Set-ActiveSyncMailboxPolicy
C. Set-ClientAccessRule
D. Get-MobileDeviceStatistics
E. Set-CASMailbox

Answer: E

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/plan-and-deploy/post-installation-tasks/change-oab-generation-sched

NEW QUESTION 7
- (Exam Topic 5)
Your company has a Microsoft Exchange Server 2019 hybrid deployment.
The company has four departments that have the mailboxes shown in the following table.

Department	Number of mailboxes	Location
Finance	500	On-premises
Manufacturing	1,000	Exchange Online
Sales	5,000	On-premises
Marketing	2,000	Exchange Online

The mailboxes are configured as shown in the following table.

Department	Archive	Single item recovery
Finance	Enabled	Enabled
Manufacturing	Disabled	Disabled
Sales	Disabled	Disabled
Marketing	Enabled	Enabled

You have two administrators named Admin1 and Admin2 that are assigned the permissions shown in the following table.

Administrator	Management role group	Organization	Management role
Admin1	Organization Management, Discovery Management	Exchange Online, on-premises	None
Admin2	Organization Management, Discovery Management	Exchange Online, on-premises	Mailbox Import Export

For each of the following statement, select yes if the statement is true. otherwise, select No. NOTE: Each correct selection is worth one point.

Statements	Yes	No
Admin1 can search for email messages in every mailbox in the organization by running the New-ComplianceSearch cmdlet.	○	○
Admin2 can perform a search for a specific keyword in every mailbox of the manufacturing department by running the Search-mailbox cmdlet.	○	○
Admin1 can delete email message from every mailbox of the marketing department by running the Search-Mailbox cmdlet.	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:
References:
https://docs.microsoft.com/en-us/exchange/discovery-management-exchange-2013-help https://docs.microsoft.com/en-us/powershell/module/exchange/mailboxes/search-mailbox?view=exchange-ps

NEW QUESTION 8
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 hybrid deployment. You plan to implement Hybrid Modern Authentication (HMA).

You retrieve the Exchange virtual directory settings, and you discover the following output.

```
InternalUrl              : https://mail.contoso.com
ExternalUrl              : https://mail.contoso.com
IISAuthenticationMethods      : {Ntlm, Negotiate}
InternalAuthenticationMethods : {Ntlm, Negotiate}
ExternalAuthenticationMethods : {Ntlm, Negotiate}
```

You need to prepare the virtual directories for the planned implementation of HMA. What should you do?

A. Add OAuth as an authentication method.
B. Remove NTLM as an authentication method.
C. Delete https://mail.contoso.com from the ExternalUrl value.
D. Modify the InternalUrl value to http://mail.contoso.com.

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/enterprise/configure-exchange-server-for-hybrid-modernauthent

NEW QUESTION 9
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 organization. You plan to migrate all mailboxes to Exchange Online.
You need to provide a user with the ability to perform the mailbox migrations. The solution must use the principle of least privilege.
Which role should you assign to the user?

A. Recipient Management
B. Server Management
C. Help Desk
D. Organization Management

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/permissions/feature-permissions/recipient-permissions?view=exchse

NEW QUESTION 10
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Online tenant that contains the following email domains:

❯ Adatum.com
❯ Contoso.com
❯ Fabrikam.com

When external recipients receive email messages from the users in the tenant, all the messages are delivered by using the @contoso.com email domain.
You need to ensure that the users send email by using the @fabrikam.com email domain. Solution: From the Microsoft 365 portal, you set fabrikam.com as the default domain. Does this meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/admin/setup/domains-faq?view=o365-worldwide#how-do-i-set

NEW QUESTION 10
- (Exam Topic 5)
HOTSPOT
You have a Microsoft Exchange Online tenant.
The Exchange organization has the following configurations.

```
PS C:\> Get-OrganizationConfig | Format-list Name,Oauth*,Activity*,Basic*,Is*

Name: M365x643293.onmicrosoft.com
OAuth2ClientProfileEnabled                              : False
ActivityBasedAuthenticationTimeoutEnabled               : True
ActivityBasedAuthenticationTimeoutInterval              : 06:00:00
ActivityBasedAuthenticationTimeoutWithSingleSignOnEnabled : True
BasicAuthBlockedApps                                    : None
IsProcessEhaMigratedMessagesEnabled                     : False
IsAgendaMailEnabled                                     : True
IsMixedMode                                             : True
IsAddressListPagingEnabled                              : True
IsLicensingEnforced                                     : True
IsTenantAccessBlocked                                   : False
IsDualWriteEnabled                                      : True
IsTenantInGracePeriod                                   : False
IsDehydrated                                            : True
IsValid                                                 : True
```

The Azure Active Directory (Azure AD) Sign-ins report is shown in the following table.

User	Application	Status	Client app	Conditional access	Authentication requirement
User1	Microsoft Office	Success	Mobile Apps and Desktop clients	Not Applied	Single-factor authentication
User1	Office 365 Exchange Online	Success	Offline Address Book	Not Applied	Single-factor authentication
User1	Office 365 Exchange Online	Success	MAPI Over Http	Not Applied	Single-factor authentication
User3	Microsoft Office	Success	Mobile Apps and Desktop clients	Not Applied	Single-factor authentication
User3	Office 365 Exchange Online	Success	Offline Address Book	Not Applied	Single-factor authentication
User3	Office 365 Exchange Online	Success	Autodiscover	Not Applied	Single-factor authentication
User2	Microsoft Office	Success	Mobile Apps and Desktop clients	Not Applied	Single-factor authentication

The Outlook Connection Status for User1 is shown in the following exhibit.

Outlook Connection Status   X

General Local Mailbox

Activity

SMTP Address	Display Name	Server name	Status	Protocol	Authn	Encrypt
User1@M365x643293.onmicrosoft.com	User1@M365x643293.onmicrosoft.com	https://outlook.office.365.com/...	Established	HTTP	Clear*	SSL
User1@M365x643293.onmicrosoft.com	User1@M365x643293.onmicrosoft.com	https://outlook.office.365.com/...	Established	HTTP	Clear*	SSL

Reconnect

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Statements	Yes	No
Microsoft Outlook connection of User1 uses Basic authentication	○	○
Modern Authentication is enabled	○	○
User3 uses the Microsoft Authenticator App to authenticate the Exchange Online	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated
Box 1: Yes
The authentication in the Outlook Connection Status exhibit is "Clear". This means that Basic authentication is being used.
Box 2: No
In the first exhibit, the OAuth2ClientProfileEnabled parameter is False. This means that Modern
Authentication is not enabled. A value of True means that Modern Authentication is enabled. Box 3: No
The Authentication Requirement for User3 in the second exhibit is Single-factor authentication. This means that the Microsoft Authenticator App is not being used.

NEW QUESTION 11
- (Exam Topic 5)
You run the Get-WebServicesVirtualDirectory cmdlet as shown in the following exhibit.

```
PowerShell I-preview o(64)                                                    -  □  :

PS C:\> Get-WebServicesVirtualDirectory | FOPMAT-Table

Identity MRSProxyEnabled InternalURL                          ExternalURL
-------- --------------- -----------                          -----------
MBX1              False https://mail.contoso.com/EWS/Exchange.asmx https://mail.contoso.com/EWS/Exchange.asmx
MBX2               True https://mail.contoso.com/EWS/Exchange.asmx https://mail.contoso.com/EWS/Exchange.asmx
MBX3              False https://mail.contoso.com/EWS/Exchange.asmx https://mail.contoso.com/EWS/Exchange.asmx

PS C:\> Get-ExchangeCertificate | Format-Table

Thumbprint                          RootCAType ISSelfSigned Services
----------                          ---------- ------------ --------
A80VE8IE41OPCANGPTG14VPXYC51H9AGRN72KFZG6 None         True SNTP
TTVQY2WYH851594CZ06ZNWNF5JK98I6N667RF9XK4 ThirdParty  False IIS, IMAP, POP

PS C:\>
```

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic.
NOTE: Each correct selection is worth one point.

What should you do to ensure that all mailboxes can be synced successfully?

▼

Enable the MRS proxy endpoint on all servers.
Disable the MRS proxy endpoint on all servers.
Update the external URL to outlook.office365.com.

What should you do to ensure that email can be delivered between on-premises users and Microsoft Exchange Online users?

▼

Configure IMAP to use a self-signed certificate.
Configure SMTP to use a third-party certificate.
Disable the MRS proxy endpoint on all servers.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1:
The MRS proxy endpoint needs to be enabled on all mailbox servers.
Box 2:
SMTP is used to deliver email between on-premise users and Exchange Online users. This requires a third-party (public CA) certificate.
Reference:
https://docs.microsoft.com/en-us/Exchange/architecture/mailbox-servers/mrs-proxy-endpoint?view=exchserver

NEW QUESTION 16
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Server 2019 hybrid deployment. All user mailboxes are hosted in Microsoft 365. All outbound SMTP email is routed through the on-premises Exchange organization.
A corporate security policy requires that you must prevent credit card numbers from being sent to internet recipients by using email.
You need to configure the deployment to meet the security policy requirement.
Solution: From the Exchange organization, you modify the properties of the Send connectors. Does this meet the goal?

A. Yes
B. No

Answer: B

Explanation:
You should create a Data Loss Prevention (DLP) policy.

NEW QUESTION 19
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 hybrid deployment. All user mailboxes are migrated to Exchange Online.
You need to migrate the public folders from the on-premises organizations to Exchange Online.
Which three actions should you perform in sequence before you create the migration batch? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
From Exchange Online, create the target public folder mailboxes.	
From Exchange Online, run the `Set-organizationConfig -RemotePublicFoldermailboxes $Null -PublicFoldersEnabled Loval` command	
From Exchange on-premises, run the `SetmailPublicFolderExternalAddress.ps1` script	
From Exchange on-premises, run the `Export-ModernPublicFolderStatistics.ps1` script	
From Exchange on-premises, run the `Set-OrganizationConfig -RemotePublicFolderMailboxes $Null -PublicFoldersEnabled Local` command	
From Exchange on-premises, run the `ModernPublicFolderToMailboxMapgenerator.ps1` script.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:
References:
https://docs.microsoft.com/en-us/Exchange/collaboration/public-folders/migrate-to-exchange-online?view=exch https://docs.microsoft.com/en-us/Exchange/collaboration/public-folders/migrate-to-exchange-online?view=exch https://docs.microsoft.com/en-us/Exchange/collaboration/public-folders/migrate-to-exchange-online?view=exch

NEW QUESTION 24
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 organization.
You need to provide a user named User1 with the ability to create and manage transport rules. To which management role group should you add User1?

A. Compliance Management
B. Server Management
C. Records Management
D. Hygiene Management

Answer: C

Explanation:

References:
https://docs.microsoft.com/en-us/exchange/records-management-exchange-2013-help

NEW QUESTION 25
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant and the devices shown in the following table.

Name	Operating system	Microsoft Outlook version
Device1	Windows	Outlook 2019
Device2	MacOS	Outlook 2016 for Mac
Device3	iOS	Outlook for iOS
Device4	Windows	Outlook on the web

You plan to implement sensitivity labels for users to apply to email messages.
Which Microsoft Outlook versions will support sensitivity labels without requiring additional software?

A. Outlook 2019 and Outlook on the web only
B. Outlook on the web only
C. Outlook 2019. Outlook 2016 for Ma
D. Outlook for iO
E. and Outlook on the web
F. Outlook for iOS and Outlook on the web only
G. Outlook 2019 only

Answer: D

NEW QUESTION 26
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant.
The mail exchanger (MX) record of your company points to a third-party message hygiene provider that forwards email messages to the tenant.
You need to ensure that Exchange Online can filter the email by using the original IP address of the sender's company.
What should you do?

A. Modify the Inbound connector to use the -EFSkipIPs parameter.
B. Modify the Receive connector to use the -EFSkipIPs parameter.
C. Enable DMARC.
D. Create a remote domain.

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/mail-flow-best-practices/use-connectors-to-configure-mail-flow/enha

NEW QUESTION 27
- (Exam Topic 5)
SIMULATION
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: admin@abc.com

Microsoft 365 Password: xxxxxx

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only.

Lab Instance: XXXXXX

You need to ensure that the users in your company can schedule a conference room named Room1 in the company's office by using Microsoft Outlook.

To complete this task, sign in to the Exchange admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

≫ In the Exchange admin center, navigate to Recipients
>Resources.

≫ To create a room mailbox, click New +
>Room mailbox.

≫ Use the options on the page to specify the settings for the new resource mailbox.

- Room name: Use this box to type a name for the room mailbox. This is the name that's listed in the resource mailbox list in the Exchange admin center and in your organization's address book. This name is required and it can't exceed 64 characters.

- Alias: A room mailbox has an email address so it can receive booking requests. The email address consists of an alias on the left side of the @ symbol, which must be unique in the forest, and your domain name on the right. The alias is required.

- Location, Phone, Capacity: You can use these fields to enter details about the room. However, as explained earlier, you can include some or all of this information in the room name so users can see it.

≫ When you're finished, click Save
to create the room mailbox.

Reference:

https://docs.microsoft.com/en-us/exchange/recipients/room-mailboxes?view=exchserver-2019

NEW QUESTION 32
- (Exam Topic 5)

You have a Microsoft Exchange Online tenant that does NOT contain any public folders.

You need to create a new public folder. The solution must ensure that users can create a post by sending an email to the folder.

Which three actions should you perform in sequence? To answer, move the appropriate cmdlets from the list of cmdlets to the answer area and arrange them in the correct order.

Actions

Assign an Exchange Online license.
Create a public folder mailbox.
Create a public folder.
Create a Microsoft 365 group.
Create a shared mailbox.
Mail-enable the public folder.
Set an email address on a pubic folder.

Answer Area

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated
Reference:
https://docs.microsoft.com/en-us/exchange/collaboration-exo/public-folders/create-public-folder https://docs.microsoft.com/en-us/exchange/collaboration-exo/public-folders/enable-or-disable-mail-for-public-fo

NEW QUESTION 33
- (Exam Topic 5)
You have a hybrid deployment that contains a Microsoft exchange Online tenant and anon premises Exchange Server 2019 server named Server1. Alt users use an email address suffix of @contoso.com.
On Server1, you create a new mailbox that uses an email address of user1@contoso.com
Users hosted in Exchange Online report that they receive a non-delivery report (NDR) When they attempt to send email messages to user1@contoso.com. The NDR contains the following text: "User1 wasn't found at contoso.com."
You verify that the Exchange Online users can send email successfully to the other mailboxes hosted on Server1. Users hosted on Server1 can send email to user1@contoso.com successfully.
You need to identify what causes the email delivery to fail. What should you use?

A. the Azure Active Directory admin center
B. the Exchange admin center
C. Azure AD Connect Health
D. the on-premises Exchange admin center

Answer: C

Explanation:
It's likely that the new user account hasn't replicated to Azure Active Directory. Azure AD Connect is responsible for account replication between on-prem AD and Azure AD.

NEW QUESTION 35
- (Exam Topic 4)
You need to ensure that Allan Deyoung can create a new public folder for the sales department. Which two actions should you perform first? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Add Allan Deyoung to the Organization Management role group
B. Create a new public folder mailbox
C. Add Allan Deyoung to the Recipient Management role group
D. Create a new shared mailbox
E. Modify Sales Policy

Answer: B

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/permissions-exo/feature-permissions https://docs.microsoft.com/en-us/exchange/collaboration-exo/public-folders/set-up-public-folders

NEW QUESTION 40
- (Exam Topic 4)
You discover that email messages sent to contoso.com are NOT delivered through Contoso Connector.
You need to ensure that all email sent to contoso.com is delivered through Contoso Connector. Which connector setting should you modify?

A. Routing
B. Security restrictions
C. Use of connector
D. Status

Answer: C

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/mail-flow-best-practices/use-connectors-to-configure-mail-flow/set

NEW QUESTION 42
- (Exam Topic 4)
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Statements	Yes	No
The Safe Attachments 1 policy applies to Alex Wilber	◯	◯
If an email message that contains detected malware is sent to Megan Bowen, the attachment will be removed, and the message will be delivered	◯	◯
For Lynne Robbins, to block both email messages and attachments that have detected malware, the priority of Safe Attachments 2 must be increased	◯	◯

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, letter, email Description automatically generated
Box 1: Yes
The Safe Attachments 1 policy applies to Group1. Alex Wilber is in Group1. Box 2: No
Megan Bowen is in Group2. The Safe Attachments 2 policy applies to Group2. The Safe Attachments 2 policy will block the email rather then remove the attachment and deliver the email.
Box 3: No
Lynne Robbins is in the Sales department which means she is a member of Group3. She is also a member of Group2 and Group4.
The Safe Attachments 2 policy blocks emails and applies to Group2. There are no other Safe Attachments policies that apply to Group3 or Group4. Therefore, Safe Attachments 2 is the only policy that applies to Lynne Robbins so you do not need to increase the priority of the policy to block the emails.

NEW QUESTION 44
- (Exam Topic 4)
Joni Sherman reports that the Microsoft Outlook client on her Windows 10 device fails to start. You need to troubleshoot the issue.
From the device, you start the Microsoft Remote Connectivity Analyzer. What should you run next?

A. the Exchange ActiveSync test
B. the Outlook Connectivity test
C. the Service Account Access test
D. the Microsoft Support and Recovery Assistant for Office 365 client

Answer: D

Explanation:
Reference:
https://www.sherweb.com/blog/office-365/microsoft-support-and-recovery-assistant/

NEW QUESTION 48
- (Exam Topic 4)
You need to ensure that Alex Wilber can recover deleted items when using Outlook on the web. Which two actions should you perform? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

A. Assign Sales Policy to Alex Wilbur.
B. Modify Marketing Policy.
C. Remove Alex Wilbur from all groups.
D. Assign Policy2 to Alex Wilbur.
E. Modify Policy1

Answer: D

NEW QUESTION 49
- (Exam Topic 4)

Lynne Robbins and the users in the sales department plan to collaborate on a project with a partner company named Contoso, Ltd. that has an email domain named contoso.com.
You need to ensure that only the sales department users can share all their calendar free/busy information with the users in contoso.com.
How should you configure the organization relationship?

A. Select Calendar free/busy information with time only and enter Group1B Select Calendar free/busy information with time, subject, and location and enter Groups
C Select Calendar free/busy information with time, subject, and location and enter Group3
B. Select Calendar free/busy information with time only and enter Group3
C. Select Calendar free/busy information with time only and enter Group2

Answer: C

Explanation:

https://docs.microsoft.com/en-us/exchange/sharing/organization-relationships/create-an-organization-relationshi

NEW QUESTION 54
- (Exam Topic 3)
You need to identify the contents of the FabrikamProject public folder to meet the technical requirements. Which PowerShell cmdlet should you run?

A. Get-PublicFolderScaciscics
B. Get-PublicFolderItemStatistics
C. Get-PublicFolderMailboxDiagnoscics
D. Get-PublicFolder

Answer: B

Explanation:
Reference:
https://docs.microsoft.com/en-us/powershell/module/exchange/get-publicfolderitemstatistics?view=exchange-ps

NEW QUESTION 57
- (Exam Topic 4)
Which contacts can sign in to and access resources in the adatum.com tenant?

A. Contact1 only
B. Contact2 only
C. Contact1 and Contact3 only
D. Contact2 and Contact3 only
E. Contact1, Contact2. and Contact3

Answer: D

NEW QUESTION 60
- (Exam Topic 3)
You need to ensure that In-Place Archiving is enabled for the marketing department users.
Which user should perform the change, and which tool should the user use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

User:

| Admin2 only |
| Admin3 only |
| Admin1 and Admin3 only |
| Admin2 and Admin4 only |

Tool:

| Microsoft 365 admin center |
| Microsoft 365 security center |
| Microsoft 365 compliance center |

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated

https://docs.microsoft.com/en-us/microsoft-365/compliance/enable-archive-mailboxes?view=o365-worldwide

NEW QUESTION 64
- (Exam Topic 3)
You need to identify which users clicked the links in the phishing emails. What should you do?

A. Run a message trace and review the results.
B. Query the mailbox audit log.
C. Use the URL trace reporting feature.
D. Review the quarantine mailbox.

Answer: C

Explanation:
Reference:
https://docs.microsoft.com/en-us/powershell/module/exchange/get-maildetailatpreport?view=exchange-ps

NEW QUESTION 67
- (Exam Topic 3)
You need to perform a remote wipe of the devices of User2 and User3. You run the following commands.
Clear-MobileDevice -id User2-Device
-NotificationEmailAddress "admin@Fabrikam.com" Clear-MobileDevice -id User3-Device
-NotificationEmailAddress "admin@Fabrikam.com"
What occurs on each device? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

On the device of User2:	▼
All data is deleted.	
Only email messages are deleted.	
Only email messages and calendar, contact, and file data are deleted.	

On the device of User3:	▼
All data is deleted.	
Only email messages are deleted.	
Only email messages and calendar, contact, and file data are deleted.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Text Description automatically generated

NEW QUESTION 76
- (Exam Topic 2)
You need to implement a solution to support the planned changes for the helpdesk users. What should you do?

A. Assign the Recipient Policies role to the helpdesk users and a default management scope
B. Assign the Mail Recipients role to the helpdesk users and use a default management scope
C. Assign the Mail Recipients role to the helpdesk users and create a custom management scope
D. Assign the Recipient Policies roles to the helpdesk users and create a custom management scope

Answer: C

NEW QUESTION 78
- (Exam Topic 2)
You need to implement a solution to support the planned changes for the branch office administrators. What should you do?

A. Assign the Mail Recipients role to the branch office administrators and use a default management scope.
B. Assign the Mail Recipients role to the branch office administrators and create a custom management scope.
C. Assign the Recipient Policies role to the branch office administrators and use a default management scope.
D. Assign the Recipient Policies role to the branch office administrators and create a custom management scope.

Answer: B

Explanation:
Ensure that the branch office administrators can configure the properties of the mailboxes in their respective offices only.
Reference:
https://docs.microsoft.com/en-us/exchange/mail-recipients-role-exchange-2013-help

NEW QUESTION 79
- (Exam Topic 2)
You need to configure the required objects for the branch office administrators. What should you create for each administrator?

A. a management role assignment policy and a management role group
B. a management role scope and a management role assignment
C. a management role scope and a management role group
D. a management role and a management role assignment policy

Answer: C

Explanation:

Reference:
https://practical365.com/exchange-server/exchange-server-role-based-access-control-in-action/

NEW QUESTION 82
- (Exam Topic 2)
You need to recommend a procedure for closing the Brussels office that meets the technical requirements. What should you recommend?

A. In the main office, deploy an Exchange Server 2016 server that has the Unified Messaging role installed, and then move the mailboxes from the Brussels office to the new server.
B. Deploy a Microsoft Skype for Business 2019 server to the main office, and then move the mailboxes from the Brussels office to an Exchange Server 2019 server in the main office.
C. Implement a new mailbox database on an Exchange Server 2019 server in the main office, and then move the mailboxes from the Brussels office to the new mailbox database.
D. Implement a new database availability group (DAG) that contains the server in the Brussels office and a new Exchange Server 2019 server in the main office, and then create a mailbox database copy on the new server in the main office.

Answer: C

Explanation:

References:
https://docs.microsoft.com/en-us/exchange/architecture/mailbox-servers/manage-mailbox-moves?view=exchserver-2019

NEW QUESTION 83
- (Exam Topic 2)
You need to resolve the issue for the customer service department users. What should you modify?

A. a transport rule
B. the Send connector to the Internet
C. the tarpit interval
D. the global throttling policy

Answer: D

NEW QUESTION 85
- (Exam Topic 1)
You need to configure the Exchange organization to meet the security requirements for sending email messages to distribution groups.
Which cmdlet should you run?

A. Set-OrganizationConfig
B. Set-DistributionGroup
C. Set-Mailbox
D. New-PolicyipConfig

Answer: A

Explanation:
 References:
https://docs.microsoft.com/en-us/powershell/module/exchange/organization/set-organizationconfig? view=exchange-ps

NEW QUESTION 90
- (Exam Topic 1)
You need to configure the environment to support the planned changes for email addresses.
How should you complete the command? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

```
[_____ ▾]    -Name ''UserMailboxes''

Set-Mailbox
Set-MailboxPlan
Update-EmailAddressPolicy
New-EmailAddressPolicy
```

```
-RecipientFilter {(RecipientType -eq 'UserMailbox')}
-EnabledEmailAddressTempates ''    [_____ ▾]    ''

                SMTP.%s%2g@contoso.com
                SMTP.%g%2s@contoso.com
                SMTP.%d%2g@contoso.com
                SMTP.%2d%s@contoso.com
```

A. Mastered
B. Not Mastered

Answer: A

Explanation:
References:

NEW QUESTION 94
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Server 2019 organization that contains 200 mailboxes.
You need to add a second email address to each mailbox. The address must have a syntax that uses the first letter of each user's last name, followed by the user's first name, and then @fabrikam.com.

Solution: You convert all the mailboxes to shared mailboxes, and then you run the Set-Mailbox cmdlet and specify the –EmailAddressPolicyEnabled $true parameter.
Does this meet the goal?

A. Yes
B. No

Answer: B

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/email-address-policies/email-add

**NEW QUESTION 99**
- (Exam Topic 5)
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

Use the following login credentials as needed:
To enter your username, place your cursor in the Sign in box and click on the username below.
To enter your password, place your cursor in the Enter password box and click on the password below.
Microsoft 365 Username: admin@abc.com
Microsoft 365 Password: xxxxxx
If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.
The following information is for technical support purposes only.
Lab Instance: XXXXXX
You need to prevent email messages from a domain named fabrikam.com from being delivered to the
mailboxes of your organization.
To complete this task, sign in to the Microsoft 365 admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
> In the Microsoft 365 Defender portal at https://security.microsoft.com, go to Email & Collaboration >
Policies & Rules

>Threat policies
>Anti-spam
in thPe olicies
section. To go directly to the
Anti-spam policies
page, use https://security.microsoft.com/antispam.

≫ On the Anti-spam policies
page, clickCreate policy
and then selecItnbound
from the drop down list.

≫ The policy wizard opens. On the Name your policy page, configure these settings:
- Name: Enter a unique, descriptive name for the policy.
- Description: Enter an optional description for the policy. When you're finished, click Next.

≫ On the Users, groups, and domains
applies to (recipient conditions):
page that appears, identify the internal recipients that the policy
- Users: The specified mailboxes, mail users, or mail contacts in your organization.
- Groups: The specified distribution groups, mail-enabled security groups, or Microsoft 365 Groups in your organization.
- Domains: All recipients in the specified accepted domains in your organization.
Click in the appropriate box, start typing a value, and select the value that you want from the results. Repeat
this process as many times as necessary. To remove an existing value, click remove
✕ next to the value.
For users or groups, you can use most identifiers (name, display name, alias, email address, account name, etc.), but the corresponding display name is shown in the results. For users, enter an asterisk (*) by itself to see all available values.
Multiple values in the same condition use OR logic (for example, <recipient1>
o<r recipient2>). Different
conditions use AND logic (for example, <recipient1>
and<member of group 1>).
- Exclude these users, groups, and domains: To add exceptions for the internal recipients that the policy applies to (recipient exceptions), select this option and
configure the exceptions. The settings and behavior are exactly like the conditions.
When you're finished, click Next.

≫ On the Bulk email threshold & spam properties
page that appears, configure the following settings:
- Bulk email threshold: Specifies the bulk complaint level (BCL) of a message that triggers the specified
action for the Bulk
spam filtering verdict that you configure on the next page (greater than the specified value,
not greater than or equal to). A higher value indicates the message is less desirable (more likely to resemble spam). The default value is 7. For more information,
see Bulk complaint level (BCL) in EOP and What's th difference between junk email and bulk email?.
By default, the PowerShell only setting MarkAsSpamBulkMail
is On in anti-spam policies. This setting
dramatically affects the results of a Bulk
filtering verdict:
MarkAsSpamBulkMail is O:nA BCL that's greater than the threshold is converted to an SCL 6 that
corresponds to a filtering verdict of Spam, and the action for the Bulk
˗message.
filtering verdict is taken on the
nt.
is taken for Ba ulk
filtering verdict. In effect, the BCL threshold andBulk
filtering verdict action are irreleva
- Increase spam score, Mark as spam* andTest mode: Advanced Spam Filter (ASF) settings that are turned off by default.
The Contains specific languages
andfrom these countries
settings are not part of ASF.
- Contains specific languages: Click the box and select On
oOr ff
from the drop down list. If you turn it on, a
box appears. Start typing the name of a language in the box. A filtered list of supported languages will appear. When you find the language that you're looking for,
select it. Repeat this step as many times as necessary. To
remove an existing value, click remove ✕
next to the value.
- From these countries*: Click the box and select On
oOr ff
from the drop down list. If you turn it on, a box
appears. Start typing the name of a country in the box. A filtered list of supported countries will appear. When you find the country that you're looking for, select it.
Repeat this step as many times as necessary. To remove
an existing value, click remove ✕
When you're finished, click Next.
next to the value.

≫ On the Actions
page that appears, configure the following settings:
- Message actions: Select or review the action to take on messages based on the following spam filtering verdicts:
˗Spam
˗High confidence spam
˗Phishing
˗High confidence phishing
˗Bulk
- Retain spam in quarantine for this many days: Specifies how long to keep the message in quarantine if
you selected Quarantine message
as the action for a spam filtering verdict. After the time period expires, the
message is deleted, and is not recoverable. A valid value is from 1 to 30 days.

- Add this X-header text: This box is required and available only if you selected Add X-header
as the action
for a spam filtering verdict. The value you specify is the header field name
that's added to the message header.
The header field value
is always This message appears to be spam.
- Prepend subject line with this text: This box is required and available only if you selected Prepend
subject line with text
message's subject line.
as the action for a spam filtering verdict. Enter the text to add to the beginning of the
- Redirect to this email address: This box is required and available only if you selected the Redirect
message to email address
as the action for a spam filtering verdict. Enter the email address where you want to
deliver the message. You can enter multiple values separated by semicolons (;).
- Enable safety Tips: By default, Safety Tips are enabled, but you can disable them by clearing the checkbox.
- Enable zero-hour auto purge (ZAP): ZAP detects and takes action on messages that have already been delivered to Exchange Online mailboxes.
ZAP is turned on by default. When ZAP is turned on, the following settings are available:
- Enable ZAP for phishing messages: By default, ZAP is enabled for phishing detections, but you can disable it by clearing the checkbox.
- Enable ZAP for spam messages: By default, ZAP is enabled for spam detections, but you can disable it by clearing the checkbox.
When you're finished, click Next.

» On the Allow & block list
flyout that appears, you are able to configure message senders by email
address or email domain that are allowed to skip spam filtering.
In the Allowed
section, you can configure allowed senders and allowed domains. In thBe locked
section, you
can add blocked senders and blocked domains.
The steps to add entries to any of the lists are the same:
- Click the link for the list that you want to configure:
- Allowed >Senders: Click Manage (nn) sender(s).
- Allowed >Domains: Click Allow domains.
- Blocked >Senders: Click Manage (nn) sender(s).
- Blocked >Domains: Click Block domains.
- In the flyout that appears, do the following steps:
Click + Add senders
oAr dd domains.
In the Add senders
oAr dd domains
flyout that appears, enter the sender's email address in thSeender
box or
the domain in the Domain
box. As you're typing, the value appears below the box. When you're finished
- typing the email address or domain, select the value below the box.
Repeat the previous step as many times as necessary. To remove an existing value, click remove ×
- value.
next to the
When you're finished, click Add senders
oAr dd domains.
- Back on the main flyout, the senders or domains that you added are listed on the page. To remove an entry from this page, do the following steps:
Select one or more entries from the list. You can also use the Search
box to find values in the l
  ist.
  ies
When you're finished, click Done.
Back on the Allow & block list
page, clickNext
when you're read to continue.

» On the Review
page that appears, review your settings. You can selecEt dit
in each section to modify
the settings within the section. Or you can click Back
When you're finished, click Create.

» On the confirmation page that appears, click Done.
or select the specific page in the wizard.

NEW QUESTION 102
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that contains the users shown in the following table.

Name	Mobile device	Mail client
User1	iOS	Native mail client
User2	Android	Microsoft Outlook for Android

From the Exchange admin center, you issue a Wipe Data command for User1 and User2.
What occurs on the device of each user? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

User1:

| All the data in the email client is wiped. |
| Only email messages and calendar items are wiped. |
| The mobile device is wiped. |

User2:

| All the data in the email client is wiped. |
| Only email messages and calendar items are wiped. |
| The mobile device is wiped. |

A. Mastered
B. Not Mastered

Answer: A

**NEW QUESTION 107**
- (Exam Topic 5)
SIMULATION
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

Use the following login credentials as needed:
To enter your username, place your cursor in the Sign in box and click on the username below.
To enter your password, place your cursor in the Enter password box and click on the password below.
Microsoft 365 Username: admin@abc.com
Microsoft 365 Password: xxxxxx
If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.
The following information is for technical support purposes only.
Lab Instance: XXXXXX
You need to create a public folder named Finance. The solution must ensure that only the members of a group named Finance Team can send email messages to the Finance folder.
To complete this task, sign in to the Microsoft 365 admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
≫ In the EAC, go to Public folders
≫ In the New public folder mailbox
>Public folder mailboxes, and then click Add +. page that opens, enter the following information:
- Name: Enter the name for the public folder mailbox.
- Organizational unit: Click Browse
created.
- Mailbox database: Click Browse
When you're finished, click Save.
to select the location in Active Directory where the mailbox object is to select the mailbox database where the mailbox is created.
Use the EAC to create a public folder
When using the EAC to create a public folder, you'll only be able to set the name and the path of the public folder. To configure additional settings, you'll need to edit the public folder after it's created.
≫ Navigate to Public folders
>Public folders.
≫ If you want to create this public folder as a child of an existing public folder, click the existing public folder in the list view. If you want to create a top-level public folder, skip this step.
≫ Click Add +.
≫ In Public Folder, type the name of the public folder.
≫ In the Path
box, verify the path to the public folder. If this isn't the desired path, clickCancel
and follow Step 2 of this procedure.
≫ Click Save.
≫ Navigate back to Public folders
>Public folders.
≫ In the list view, select the public folder that you want to mail-enable or mail-disable.

≫ In the details pane, under Mail settings, click Enable
oDr isable.

≫ A warning box displays asking if you're sure you want to enable or disable email for the public folder.
Click Yes
to continue.
You can then run the Set-MailPublicFolder PowerShell cmdlet, and include the AcceptMessagesOnlyFromDLMembers parameter to specify who is allowed to send messages to this recipient.

NEW QUESTION 114
- (Exam Topic 5)

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

Use the following login credentials as needed:
To enter your username, place your cursor in the Sign in box and click on the username below.
To enter your password, place your cursor in the Enter password box and click on the password below.
Microsoft 365 Username: admin@abc.com
Microsoft 365 Password: xxxxxx
If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.
The following information is for technical support purposes only.
Lab Instance: XXXXXX

You need to ensure that all emails sent from the users in your company to recipients who use a suffix of
@fabnkam.com are encrypted by using Microsoft Office 365 Message Encryption (OME).
To complete this task, sign in to the Exchange admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

≫ In the Microsoft 365 admin center, choosAe dmin centers
>Exchange.

≫ In the EAC, go to Mail flow
>Rules
and selecNt ew +
>Create a new rule.

≫ In Name, type a name for the rule, such as Encrypt mail for DrToniRamos@hotmail.com.

≫ In Apply this rule if, select a condition, and enter a value if necessary. For example, to encrypt messages going to DrToniRamos@hotmail.com:
▪ In Apply this rule if, select the recipient is.
  ox.
- To select an existing name, select it from the list and then click OK.
- To enter a new name, type an email address in the check names
box and then selecctheck names
>OK.

≫ To add more conditions, choose More options
and then choosaedd condition
and select from the list.
For example, to apply the rule only if the recipient is outside your organization, select add condition
and then
select The recipient is external/internal
>Outside the organization
>OK.

> To enable encryption using the new OME capabilities, from Do the following, select Modify the message security
and then choosAe pply Office 365 Message Encryption and rights protection.
Select an RMS template from the list, choose Save, and then choose OK.

https://docs.microsoft.com/en-us/microsoft-365/compliance/define-mail-flow-rules-to-encrypt-email?view=o365

NEW QUESTION 115
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that contains a user named User1. User1 has a retention policy to delete Inbox messages after 30 days.
User1 is going on extended leave and requires that the Inbox messages be retained during the user's absence. You need to temporarily suspend the processing of the Inbox messages for User1.
How should you complete the command? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

▼	"User1"	▼
Set-CASMailbox		-ECPEnabled $true
Set-Mailbox		-ElcProcessingDisabled $true
Set-OutlookProtectionRule		-RetentionEnabled $true
Set-RetentionPolicy		-RetentionHoldEnabled $true

NEW QUESTION 118
- (Exam Topic 5)
You run the following PowerShell command in a Microsoft 365 environment.

```
PS C:\WINDOWS\system32> Get-OrganizationConfig | fl *group*

DistributionGroupDefaultOU              :
DistributionGroupNameBlockedWordsList  : {}
DistributionGroupNamingPolicy           :
MailTipsGroupMetricsEnabled            : True
DirectReportsGroupAutoCreationEnabled  : False
GroupsCreationEnabled                  : False
HiddenMembershipGroupsCreationEnabled  : False
GroupsUsageGuidelinesLink              :
DefaultGroupAccessType                 : Private
IsMIPLabelForGroupsEnabled             : False
OcmGroupId                             :
```

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the command.
NOTE: Each correct selection is worth one point.

[Answer choice] can view the list of members in a group ▼
- Only administrators
- Only administrators and group owners
- All users

[Answer choice] can view the contents of a group mailbox ▼
- Only administrators
- Only administrators and group owners
- All users

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated

NEW QUESTION 119
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft 365 E5 subscription.
You need to ensure that a user named User1 can review audit reports from the Microsoft 365 security center. User1 must be prevented from tracing messages from the Security admin center.
Solution: You assign the Security Reader role to User1. Does this meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Security Administrator can view the audit reports but cannot create a message trace. Reference:
https://docs.microsoft.com/en-us/microsoft-365/security/office-365-security/message-trace-scc

NEW QUESTION 122
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 organization that contains several thousand users. Most users connect to their mailbox by using a mobile device.
A new corporate security policy requires that when connecting from a mobile device, all users on devices that run iOS must use the Outlook mobile app only.
You need to modify the organization to meet the security requirement.
What should you do?

A. From the Exchange Management Shell, run the New-DeviceConditionalAccessPolicy cmdlet.
B. From the Exchange admin center, create a mobile device access rule.
C. From the Exchange Management Shell, run the New-DeviceConfigurationRule cmdlet.
D. From the Exchange admin center, modify the default mobile device mailbox policy.

Answer: D

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/clients/exchange-activesync/mobile-device-mailbox-policies?view=e

NEW QUESTION 126
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that contains a retention policy named Policy1 and a user named User1.
Policy1 is assigned to all users and contains the retention tags shown in the following table.

Name	Type	Retention period	Retention action
Tag1	Default mailbox	1826 days	Permanently Delete
Tag2	Default folder	365 days	Move to Archive
Tag3	Personal	730 days	Move to Archive

Tag3 is applied to an email message in the inbox of User1. You remove Tag3 from Policy1.
What will occur to the message?

A. The existing retention tag will be retained.
B. The existing retention tag will be removed.
C. The default mailbox retention tag will apply.
D. The default folder retention tag will apply.

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/security-and-compliance/messaging-records-management/retention-t

NEW QUESTION 131
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that uses Microsoft Defender for Office 365. You have the policies shown in the following table.

Name	Type
Standard Preset Security Policy	Preset security policy
Policy1	Anti-malware

You need to track any modifications made to Policy! by the identifying following:
• The name of the user that modified the policy
• The old and new values of settings modified in Policy!
• How the modifications compare to the baseline settings of Standard Preset Security Policy What should you use in the Microsoft 365 Defender portal?

A. Threat tracker
B. Threat analytics
C. Audit
D. Configuration analyzer

Answer: D

NEW QUESTION 132
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant.
You recently hired two new administrators named Admin5 and Admin6. You need to grant the following permissions to the new administrators:

≫ Admin5 must be able to assign licenses to users.

≫ Admin6 must be able to modify the email SPAM settings of all users.

≫ Admin5 must be able to configure the email forwarding settings of all users.

≫ Admin5 and Admin6 must be able to manage the mailbox permissions of all users. The solution must use the principle of least privilege.
Which role should you assign to each user? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Admin5: ▼
- User Administrator
- Global Administrator
- Exchange Administrator

Admin6: ▼
- User Administrator
- Global Administrator
- Exchange Administrator

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, chat or text message Description automatically generated
Reference:
https://www.withum.com/resources/a-breakdown-of-microsoft-365-admin-roles-responsibilities-previously-offic

NEW QUESTION 134
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant that uses an email domain named @contoso.com. You recently purchased an email domain named fabrikam.com.
You need to ensure that all the users in the tenant can receive email messages by using the @fabrikam.com email domain. The solution must ensure that the users can continue to receive email by using the @contoso.com email domain.
Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. From the Microsoft 365 admin center, add the fabrikam.com email domain.
B. From the Exchange admin center, add an accepted domain for fabrikam.com.
C. From the Microsoft 365 admin center, modify the organization profile.
D. From the Exchange admin center, add a remote domain for fabrikam.com.
E. From the Exchange Management Shell, create a script that runs the Set-Mailbox cmdlet.

Answer: AE

Explanation:
A: the first step is to add the Fabrikam.com domain to Microsoft 365. You would also need to verify the domain (verify that you own the domain).

E: create a script that runs the Set-Mailbox cmdlet to add an @fabrikam.com email address to each mailbox.

NEW QUESTION 139
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
Your company has a Microsoft Exchange Server 2019 hybrid deployment that contains two Mailbox servers named MBX1 and MBX2.
The company has the departments shown in the following table.

Name	Mailbox location	Number of recipients
Sales	MBX1	300
Production	MBX2	500
Administration	MBX1	200
IT	Exchange Online	50
Managers	Exchange Online	100
Marketing	Exchange Online	350

From the on-premises organization, outbound email is sent directly to the Internet by using DNS lookups. You are informed that some sales department users send email messages that are identified as spam.
You need to automatically block the sales department users from repeatedly sending spam. Solution: You modify the outbound spam filter policy in Exchange Online.
Does this meet the goal?

A. Yes
B. No

Answer: B

Explanation:
From the on-premises organization, outbound email is sent directly to the Internet by using DNS lookups. Therefore, the Exchange Online outbound spam filter will not scan the emails sent from the on-premises mailboxes.
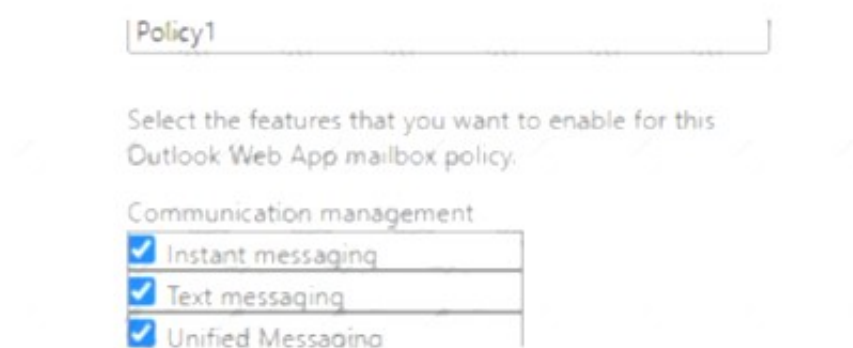

NEW QUESTION 144
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant.
You need to configure Outlook on the web to meet the following requirements:
• Prevent users from requesting a remote wipe of their devices.
• Prevent users from accessing voice mails.
You create a new Outlook Web App mailbox policy named Policy1.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Unified Messaging

NEW QUESTION 147
- (Exam Topic 5)
All the users in your company have Microsoft 365 mailboxes.
Each user connects to Microsoft Exchange Online and OneDrive for Business from a personal computer that runs Windows 10.
You need to ensure that the users can save attachments to OneDrive for Business only when they connect to their mailbox from Outlook on the web.
What should you create?

A. an app protection policy in Microsoft Endpoint Manager
B. a device compliance policy in Microsoft Endpoint Manager
C. an Outlook Web App policy in Exchange Online
D. an Exchange ActiveSync device access rule

Answer: C

Explanation:
https://www.pelegit.co.il/prevent-downloading-attachments-through-owa/

NEW QUESTION 148
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 organization.
You have the Address Book Policies (ABP) and address lists in the following table.

Name	Global address list	Offline address book	Address list
ABP1	GAL_1	OAB_1	List 1
ABP2	GAL_2	Default Offline Address Book	List 2

You have the users in the following table.

Name	Global address list	Address List
User1	GAL_1	List 1
User2	GAL_2	List 2
User3	GAL_2	none

You assign ABP1 to User1 and User2.
User3 is NOT assigned to an Address Book Policy.
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Statements	Yes	No
User1 can view the membership of List 2	○	○
User2 can only view the membership of GAL_2	○	○
User3 can view the membership of List 1	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:

https://docs.microsoft.com/en-us/exchange/email-addresses-and-address-books/address-book-policies/address-b

NEW QUESTION 152
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Server 2019 hybrid deployment. All user mailboxes are hosted in Microsoft 365. All outbound SMTP email is routed through the on-premises Exchange organization.
A corporate security policy requires that you must prevent credit card numbers from being sent to internet recipients by using email.
You need to configure the deployment to meet the security policy requirement.
Solution: From the Exchange organization, you create a data loss prevention (DLP) policy. Does this meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/compliance/data-loss-prevention-policies?view=o365-worldwid

NEW QUESTION 156
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 hybrid deployment named contoso.com. You are preparing to migrate several user mailboxes to Microsoft 365.
You have an on-premises Mailbox server named server1.contoso.com. You need to create a migration endpoint.
How should you complete the command? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

```
New-MigrationEndpoint -Name MEP1        ▼
                                  -Autodiscover
                                  -ExchangeRemoteMove
                                  -SkipVerification
                                  -TestMailbox
```

```
              ▼     server1.contoso.com

NEW QUESTION 162
- (Exam Topic 5)
You have a hybrid deployment between a Microsoft Exchange Online tenant and an on-premises Exchange Server 2019 organization.
Several users hosted in Microsoft 365 report that when they send email messages to mailboxes hosted in Exchange Server 2019, the messages fail to be delivered.
You need to examine the non-delivery reports (NDRs) sent to the Microsoft 365 mailboxes.
Which two actions should you perform? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. From an on-premises Exchange server, use the transport logs.
B. From an on-premises Exchange server, use the SMTP logs.
C. From the on-premises Exchange admin center, use a message trace.
D. From the Exchange admin center, use a message trace.
E. From the Exchange Management Shell, run the Get-Queue cmdlet.

Answer: CD

Explanation:

https://docs.microsoft.com/en-us/exchange/monitoring/trace-an-email-message/message-trace-faq

NEW QUESTION 166
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 hybrid deployment. All Mailbox servers and domain controllers are in the same site. You deploy an Edge Transport server.
You need to ensure that all SMTP traffic between the on-premises organization and Exchange Online is routed through the Edge Transport server.
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
On a Mailbox server, modify the accepted domains.	
Copy the Edge Subscription file to a Mailbox server.	
On the Edge Transport server, run New-EdgeSubscription.	
On a Mailbox server, run New-EdgeSubscription.	
Run the Microsoft Office 365 Hybrid Configuration wizard.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:
New-EdgeSubscription -FileName "c:\EdgeServerSubscription.xml" This example creates the Edge Subscription file. It should be run on your Edge Transport server. New-EdgeSubscription -FileData
([byte[]]$(Get-Content -Path "C:\EdgeServerSubscription.xml" -Encoding Byte -ReadCount 0)) -Site
"Default-First-Site-Name" This example also imports the Edge Subscription file generated in Example 1 to the Active Directory site Default-First-Site-Name;
however, the end result is accomplished using one command. You must run this command on the Mailbox server. ref.
https://docs.microsoft.com/en-us/powershell/module/exchange/mail-flow/new-edgesubscription?view=exchange

NEW QUESTION 167
- (Exam Topic 5)
You plan to migrate to Microsoft Exchange Online. The solution must meet the following requirements.

≫ Messages sent by the research & development department at your company must be routed to the internet through an on-premises data loss prevention (DLP) appliance.

≫ The actual source of the messages received by Exchange Online from a third-party cloud filtering service must be identified.
What features should you use to meet the requirements? To answer, drag the appropriate options to the correct requirements. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Exchange Features	Answer Area	
Conditional mail routing	Messages sent by the research & development department must be routed to the internet through an on-premises data loss prevention (DLP) appliance:	
Directory Based Edge Blocking (DBEB)		
Enhanced Filtering	The actual source of the messages received by Exchange Online from a third-party cloud filtering service must be identified:	
Remote domains		

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated

The following information is for technical support purposes only.

Lab Instance: XXXXXX

You need to ensure that the users in your tenant can only share calendar availability information with users in the tenant and users in a domain named contoso.com.

To complete this task, sign in to the Microsoft 365 admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

≫ From the Microsoft 365 admin center dashboard, go to Admin
>Exchange.

≫ Go to Organization
>Sharing.

≫ Under Organization Sharing, click New +.

≫ In new organization relationship, in the Relationship name
organization relationship.
box, type a friendly name for the

≫ In the Domains to share with
box, type the domain for the external Microsoft 365, Office 365, or
Exchange on-premises organization you want to let see your calendars. If you need to add more than one domain, you can do it after you create the organization relationship by editing it.

≫ Select the Enable calendar free/busy information sharing
check box to turn on calendar sharing with
the domains you listed. Set the sharing level for calendar free/busy information and set which users can share calendar free/busy information.

≫ To set the free/busy access level, select one of the following values:
- Calendar free/busy information with time only
- Calendar free/busy with time, subject, and location
To set which users will share calendar free/busy information, select one of the following values:
- Everyone in your organization
- A specified security group

≫ Click Browse
to pick the security group from a list, then clickOK.

≫ Click Save
to create the organization relationship.

NEW QUESTION 188
- (Exam Topic 5)
Your company named ADatum Corporation has a Microsoft Exchange Online subscription that contains the sharing policies shown in the following table.

Name	Domain	Enabled	Default
Policy1	{Anonymous:CalendarSharingFreeBusySimple, fabrikam.com:CalendarSharingFreeBusyReviewer, ContactsSharing}	True	True
Policy2	{contoso.com:CalendarSharingFreeBusyDetail}	True	False
Policy3	{litware.com:CalendarSharingFreeBusyReviewer}	True	False

The subscription contains the mailboxes shown in the following table.

Name	Sharing policy
User1	Policy1
User2	Policy2
User3	Policy3

ADatum does business with the partner companies shown in the following table.

Name	SMTP domain	Email platform
Fabrikam, Inc.	Fabrikam.com	On-premises Exchange Server 2019
Contoso, Ltd.	Contoso.com	Third-party email server
Litware, Inc.	Litware.com	Exchange Online

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Statements	Yes	No
For User1 to share contacts with the users at Fabrikam, a federation trust is required.	○	○
User2 can share free/busy hours, subject, and location with the users at Contoso.	○	○
User3 can share calendars with the users at Litware.	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Statements	Yes	No
For User1 to share contacts with the users at Fabrikam, a federation trust is required.	○	[○]
User2 can share free/busy hours, subject, and location with the users at Contoso.	[○]	○
User3 can share calendars with the users at Litware.	[○]	○

NEW QUESTION 190
- (Exam Topic 5)
You have a Microsoft 365 E5 tenant that contains two Azure Active Directory (Azure AD) security groups

named Finance and Marketing. The tenant contains the users and devices shown in the following table.

Name	Azure AD group membership	Device
User1	Finance	Device1
User2	Marketing	Device2
User3	Finance	Device3

The devices are configured as shown in the following table.

Device	Azure AD-joined	Microsoft Intune-enrolled
Device1	No	No
Device2	Yes	Yes
Device3	Yes	Yes

A conditional access policy is configured as shown in the following exhibit.

Name *

Outlook on the Web Policy

Assignments

Users and groups ⓘ
Specific users included   >

NEW QUESTION 195
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
Your company has a Microsoft 365 subscription.

Several users in the finance department of the company recently accessed unsafe websites by clicking on links in email messages.
Users in the marketing department of the company report that they must be able to access all the links embedded in email messages.
You need to reduce the likelihood of the finance department users accessing unsafe websites. The solution must affect only the finance department users.
Solution: You create a new safe links policy and apply the policy to finance department users. Does this meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/security/office-365-security/set-up-safe-links-policies?view=o3

**NEW QUESTION 197**
- (Exam Topic 5)
SIMULATION
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

Use the following login credentials as needed:
To enter your username, place your cursor in the Sign in box and click on the username below.
To enter your password, place your cursor in the Enter password box and click on the password below.
Microsoft 365 Username: admin@abc.com
Microsoft 365 Password: xxxxxx
If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.
The following information is for technical support purposes only.
Lab Instance: XXXXX
You need to ensure that a notification email is sent to compliance@constoso.com when a user marks an email message as Not Junk in Microsoft Outlook.
To complete this task, sign in to the Microsoft 365 admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Go to the Microsoft 365 Defender portal and undEemr ail & collaboration policy.

≫ An alert policy consists of the following settings and conditions.
selecPt olicies & rules
>Alert
- Activity the alert is tracking. You create a policy to track an activity or in some cases a few related activities, such a sharing a file with an external user by sharing it, assigning access permissions, or creating an anonymous link. When a user performs the activity defined by the policy, an alert is triggered based on the alert threshold settings.
- Activity conditions. For most activities, you can define additional conditions that must be met to trigger an alert. Common conditions include IP addresses (so that an alert is triggered when the user performs the activity on a computer with a specific IP address or within an IP address range), whether an alert is triggered if a specific user or users perform that activity, and whether the activity is performed on a specific file name or URL. You can also configure a condition that triggers an alert when the activity is performed by any user in your organization. The available conditions are dependent on the selected activity.

≫ You can also define user tags as a condition of an alert policy. This results in the alerts triggered by the policy to include the context of the impacted user. You can use system user tags or custom user tags.
- When the alert is triggered. You can configure a setting that defines how often an activity can occur before an alert is triggered. This allows you to set up a policy to generate an alert every time an activity matches the policy conditions, when a certain threshold is exceeded, or when the occurrence of the activity the alert is tracking becomes unusual for your organization.

≫ If you select the setting based on unusual activity, Microsoft establishes a baseline value that defines the normal frequency for the selected activity. It takes up to seven days to establish this baseline, during which alerts won't be generated. After the baseline is established, an alert is triggered when the frequency of the activity tracked by the alert policy greatly exceeds the baseline value. For
auditing-related activities (such as file and folder activities), you can establish a baseline based on a single user or based on all users in your organization; for malware-related activities, you can establish a baseline based on a single malware family, a single recipient, or all messages in your organization.
- Alert category. To help with tracking and managing the alerts generated by a policy, you can assign one of the following categories to a policy.
- Data loss prevention
- Information governance
- Mail flow
- Permissions
- Threat management
- Others

≫ When an activity occurs that matches the conditions of the alert policy, the alert that's generated is tagged with the category defined in this setting. This allows you to track and manage alerts that have the
same category setting on the Alerts
based on category.
page in the compliance center because you can sort and filter alerts
- Alert severity. Similar to the alert category, you assign a severity attribute (Low, Medium, High, or Informational) to alert policies. Like the alert category, when an activity occurs that matches the conditions of the alert policy, the alert that's generated is tagged with the same severity level that's set for the alert policy. Again, this allows you to track and manage alerts that have the same severity setting on the Alerts
page. For
example, you can filter the list of alerts so that only alerts with a High
severity are displayed.
- Email notifications. You can set up the policy so that email notifications are sent (or not sent) to a list of users when an alert is triggered. You can also set a daily notification limit so that once the maximum number of notifications has been reached, no more notifications are sent for the alert during that day. In addition to email notifications, you or other administrators can view the alerts that are triggered by a policy on the Alerts
page. Consider enabling email notifications for alert policies of a specific category or that have a higher severity setting.

https://docs.microsoft.com/en-us/microsoft-365/compliance/alert-policies?view=o365-worldwide#how-alert-pol

NEW QUESTION 202
- (Exam Topic 5)
You have a Microsoft Exchange Server hybrid deployment that contains Exchange 2013, Exchange 2016, and Exchange 2019 servers. All the servers have the latest Cumulative Updates (CUs) applied.
You need to implement Hybrid Modern Authentication (HMA). The solution must minimize costs. What should you do first?

A. Upgrade the Exchange 2013 servers to Exchange 2016 CU7.
B. Add the on-premises web service URLs as Azure Active Directory (Azure AD) service principal names (SPNs).
C. Upgrade all the servers to Exchange 2019.
D. Create an Azure Active Directory (Azure AD) conditional access policy for Exchange Online.

Answer: B

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/enterprise/configure-exchange-server-for-hybrid-modern-authen https://docs.microsoft.com/en-us/microsoft-365/enterprise/hybrid-modern-auth-overview?view=o365-worldwid

NEW QUESTION 204
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Online tenant that contains 1,000 users.
A user named User1 receives a non-delivery report (NDR) when attempting to send an email message to an internal group named sales@contoso.com. The NDR contains the following text: "5.7.1 Delivery not authorized."
You need to ensure that User1 can send email to sales@contoso.com successfully. Solution: You modify the properties of User1.

A. Yes
B. No

Answer: B

Explanation:

Reference:
https://docs.microsoft.com/en-us/exchange/mail-flow-best-practices/non-delivery-reports-in-exchange-online/fix

NEW QUESTION 205
- (Exam Topic 5)
You have a Microsoft 365 tenant that contains a user named User1.
User1 reports that she cannot configure a mail profile in Microsoft Outlook for Windows.
User1 receives the following error message: "Encrypted connection to your mail server is not available." You verify that User1 is assigned a Microsoft Office 365 Enterprise F3 license and can send email messages from her account by using Outlook on the web.
You need to ensure that User1 can connect to Outlook successfully. What should you do?

A. Run the Microsoft Support and Recovery Assistant for Office 365.
B. Activate the installation of Office 365 ProPlus.
C. Modify the license assigned to User1.
D. Install a new certificate on the computer of User1.

Answer: C

Explanation:

https://docs.microsoft.com/en-us/exchange/troubleshoot/outlook-issues/encrypted-connection-unavailable

NEW QUESTION 208
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 organization that contains 5,000 mailboxes.
You need to migrate 1,000 users to Exchange Online. The migrated users must support Hybrid Modern Authentication (HMA).
Which migration method should you use?

A. cutover migration
B. full hybrid migration
C. minimal hybrid migration
D. express hybrid migration

Answer: B

NEW QUESTION 210
- (Exam Topic 5)
You have a Microsoft Exchange Online subscription.
You need to prevent all Android devices from using Exchange ActiveSync to sync email. Other devices must be allowed to sync email by using Exchange ActiveSync.
What should you use?

A. data loss prevention (DLP) policies
B. Exchange ActiveSync access settings
C. device access rules
D. mobile device mailbox policies

Answer: C

Explanation:
Reference:
https://docs.microsoft.com/en-us/powershell/module/exchange/new-activesyncdeviceaccessrule?view=exchange

NEW QUESTION 212
- (Exam Topic 5)
You have a Microsoft Exchange Server 2019 hybrid deployment.
You migrate public folders from on-premises to Exchange Online by using the batch migration process. After the batch migration completes, additional public folders are created on-premises.
You need to migrate the new on-premises public folders to Exchange Online. What should you do?

A. Export the contents of the folders to a PST file, and then import the PST files by using Outlook PST export.
B. Create a new public folder migration batch that contains only the new folders.
C. Repeat the original batch migration process and add the new folders to the migration batch.

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/collaboration/public-folders/migrate-to-exchange-online?view=exch

NEW QUESTION 213
- (Exam Topic 5)
Your company named Contoso, Ltd. has a Microsoft Exchange Online subscription.
You have several transport rules. The rules automatically apply a disclaimer to email messages that contain certain keywords in the subject and are sent to recipients in an email domain named fabrikam.com.
You receive a report that some messages are delivered without the disclaimer.
You need to view which transport rules were applied to messages sent to the fabrikam.com recipients. What should you use?

A. the SMTP protocol logs
B. a URL trace
C. the transport server logs
D. a message trace

Answer: D

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/monitoring/trace-an-email-message/run-a-message-trace-andview-re

NEW QUESTION 214
- (Exam Topic 5)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You have a Microsoft Exchange Online tenant that uses an email domain named contoso.com. You need to prevent all users from performing the following tasks:

≫ Sending out-of-office replies to an email domain named fabrikam.com.

≫ Sending automatic replies to an email domain named adatum.com.
The solution must ensure that all the users can send out-of-office replies and automatic replies to other email domains on the internet.
Solution: You create two new remote domains. Does this meet the goal?

A. Yes
B. No

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/exchange/mail-flow-best-practices/remote-domains/remote-domains

NEW QUESTION 218
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant.
You have an on-premises scanner that emails scanned documents by using SMTP.
You need to create a Microsoft Office 365 SMTP relay to route email from the scanner to the internet. The solution must ensure that the connector accepts only email sent by the scanner.
How should you configure the connector? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Select your mail flow scenario

Specify your mail flow scenario, and we'll let you know if you need to set up a connector.

NEW QUESTION 222
- (Exam Topic 5)

You have a Microsoft Exchange Server 2019 hybrid deployment that contains the public folders shown in the following table.

Name	Structure	Mail-enabled
PF1	Hierarchical	Yes
PF2	Flat	No
PF3	Flat	Yes

You plan to migrate the public folders to Exchange Online to improve the collaboration options available to users.
Which public folders can be migrated to Office 365 groups without losing the folders' existing functionality?

A. PF2 and PF3 only
B. PF2 only
C. PF1 and PF2 only
D. PF1 only
E. PF3 only

Answer: A

Explanation:
Not PF1. Office 365 groups are 'flat' so you would lose the folder hierarchy. Reference:
https://docs.microsoft.com/en-us/exchange/collaboration/public-folders/migrate-to-microsoft-365-groups?view=

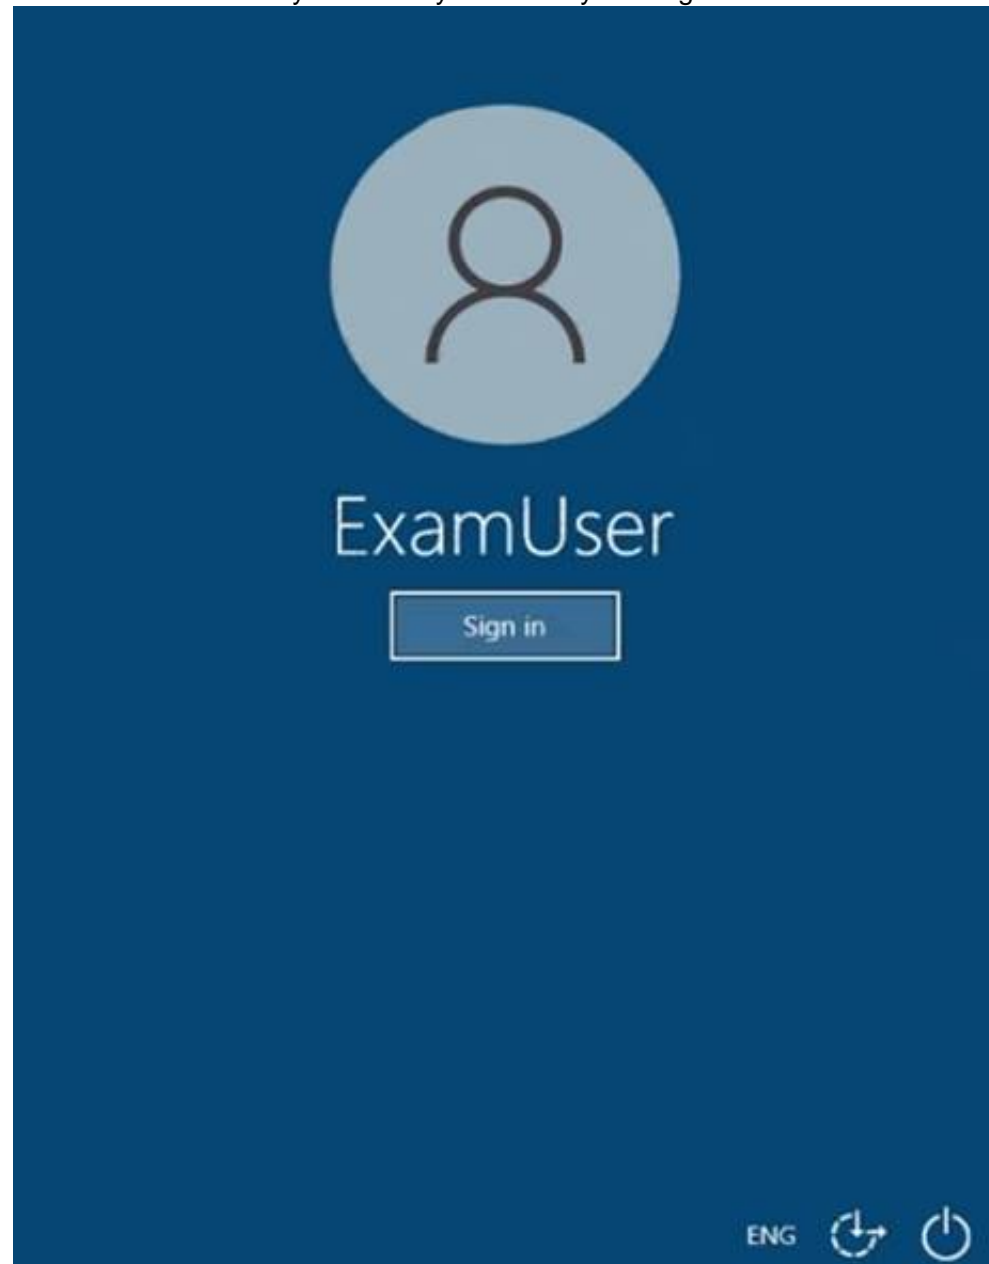

NEW QUESTION 225
- (Exam Topic 5)
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Microsoft 365 Username: admin@abc.com
Microsoft 365 Password: xxxxxx
If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.
The following information is for technical support purposes only.
Lab Instance: XXXXXX
Two users named Christie Cline and Irvyn Sayers leave your company.
You need to ensure that all email sent to the users at your company are forwarded automatically to the mailbox of Megan Bowen. The solution must NOT use mail flow rules.

To complete this task, sign in to the Microsoft 365 admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

≫ In the EAC, go to Recipients
>Mailboxes.

≫ In the list of user mailboxes, click or tap the mailbox that you want to configure mail forwarding for, and then click or tap Edit

≫ On the mailbox properties page, click Mailbox Features.

≫ Under Mail Flow, select View details
to view or change the setting for forwarding email messages.
On this page, you can set the maximum number of recipients that the user can send a message to. For
on-premises Exchange organizations, the recipient limit is unlimited. For Exchange Online organizations, the limit is 500 recipients.

≫ Check the Enable forwarding
check box, and then click or tapBrowse.

≫ On the Select Recipient
page, select a user you want to forward all email to. Select thDe eliver message
to both forwarding address and mailbox
check box if you want both the recipient and the forwarding
email address to get copies of the emails sent. Click or tap OK, and then click or tap Save.

NEW QUESTION 227
- (Exam Topic 5)
You have a Microsoft Exchange Online tenant.
All users use an email address suffix of @contoso.com.
You need to ensure that all the email messages sent to users who use an email address suffix of
@fabrikam.com are encrypted automatically. The solution must ensure that the messages can be inspected for data loss prevention (DLP) rules before they are encrypted.
What should you create?

A. an Outbound connector
B. a safe attachments policy
C. a remote domain
D. a mail flow rule

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/microsoft-365/compliance/define-mail-flow-rules-to-encrypt-email?view=o365 https://docs.microsoft.com/en-us/exchange/security-and-compliance/data-loss-prevention/data-loss-prevention

NEW QUESTION 232
- (Exam Topic 5)
Your company has an Exchange Online tenant.
A partner company named Fourth Coffee also uses Exchange Online.
You need to ensure that the users at your company share free busy information with the users at Fourth Coffee. The solution must ensure that the meeting details included in the calendars of your company users remain hidden from the Fourth Coffee users.
How should you complete the command? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/powershell/module/exchange/new-organizationrelationship?view=exchange-ps

NEW QUESTION 235
- (Exam Topic 5)
You have a hybrid deployment between Microsoft Exchange Online and on-premises Exchange Server 2019. All user mailboxes are in Microsoft 365.
A user named User1 leaves your company.
You delete the user account of User1 from the on-premises Active Directory domain. Two weeks later, User1 returns to the company.
You need to ensure that User1 can connect to his mailbox and access all his old email messages.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
From the on-premises Active Directory Recycle Bin, recover the user account	
Run the New-MailboxRestoreRequest cmdlet	
Assign a Microsoft 365 license to User1	
From the on-premises Active Directory domain, create a new user named User1	
Run the New-Mailbox -InactiveMailbox cmdlet	
Run the Restore-MsolUser cmdlet	
Force a synchronization from Azure AD Connect	

A. Mastered
B. Not Mastered

NEW QUESTION 239
- (Exam Topic 5)
You have 1,000 user accounts that are each licensed for Microsoft 365. Each user account has a Microsoft Exchange Online mailbox.
Ten of the user accounts are configured as service accounts for applications. The applications send event notifications to the mailboxes of the service accounts by using SMTP. The developers of each application have delegated access to the mailbox of their respective application.
You need to ensure that all the event notifications sent by the applications are retained in the service account mailboxes so that new developers can review older notifications. The developers must be able to view only the notifications for their respective application.
What should you do?

A. Replace the service account mailboxes with a single user mailbox that contains a folder for each application.
B. Replace the service account mailboxes with a single user mailbox that contains Power Automate rules.
C. Convert the service account mailboxes into shared mailboxes.
D. Convert the service account mailboxes into mail-enabled users.

Answer: C
NEW QUESTION 241
- (Exam Topic 5)
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. Microsoft 365 Username: admin@abc.com
Microsoft 365 Password: xxxxxx
If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.
The following information is for technical support purposes only.
Lab Instance: XXXXXX
You need to reduce the likelihood that malicious links contained in emails received by mailboxes in
@lab.CloudCredential(1).TenantName are opened.
To complete this task, sign in to the Exchange admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
➤ Navigate to the Exchange Admin Center, and then choose the Advanced Threats
section of the EAC.
➤ Click the Safe Links
tab to examine all existing Safe Links policies:
➤ After navigating to the Safe Links policy page, choose the Add
button (+) to create a new policy. The
New Safe Links Policy
window opens.
- In the resulting window we'll be presented with the options available for creating our new Safe Links policy.
➤ In Name
enter an appropriate, unique, name that describes this policy. In the description enter some text
that provides a little more detail for anyone trying to make sense of the options selected here.
➤ Next we'll choose the action to take for URLs. We can leave this Off, if for example we are creating a policy to exclude a group of users that would otherwise
be affected by another Safe Links policy.
➤ The checkbox Do not track user click
can be selected if you do not wish to use the reporting
functionality available at a later date. This is a key feature when understanding which users clicked a link that was later found to be a threat, so be careful about
choosing to disable user click tracking.
➤ Our final check box provides options for click-through is a link is found to be dangerous. In some circumstances you may trust users to click-through links, or
they may request the ability to do so. In
most circumstances you will not
want a user to click-through the malicious link.
➤ Some URLs, such as those for internal addresses or even trusted partners, may not require re-writing.
Enter these URLs here.
➤ Finally, we will select the scope for the rule under the Applied to

section.

 Using similar conditions to transport rules we can select who this rule applies to including:
- Individual recipients
- Recipient domains
- Members of distribution groups

 The same conditions can be used for exceptions. When you have configured your rule, choose Save.
After saving the new Safe Links rule it will be shown in the EAC list. Just like Transport Rules, you can use the Enabled column to enable or disable the Safe Links policy.

You need to create a public folder named Finance in your Microsoft 365 tenant. Users must be able to send emails to Finance by using an email address of finance@lab.CloudCredential(1).TenantName.
To complete this task, sign in to the Exchange admin center.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Use the EAC to create a public folder mailbox
 In the EAC, go to Public folders

> In the New public folder mailbox
>Public folder mailboxes, and then click Add +. page that opens, enter the following information:
- Name: Enter the name for the public folder mailbox.
- Organizational unit: Click Browse
created.
- Mailbox database: Click Browse
When you're finished, click Save.
to select the location in Active Directory where the mailbox object is to select the mailbox database where the mailbox is created.
Use the EAC to create a public folder
When using the EAC to create a public folder, you'll only be able to set the name and the path of the public folder. To configure additional settings, you'll need to edit the public folder after it's created.

> Navigate to Public folders
>Public folders.

> If you want to create this public folder as a child of an existing public folder, click the existing public folder in the list view. If you want to create a top-level public folder, skip this step.

> Click Add +.

> In Public Folder, type the name of the public folder.

> In the Path
box, verify the path to the public folder. If this isn't the desired path, clickCancel
and
follow Step 2 of this procedure.

> Click Save.

> Navigate back to Public folders
>Public folders.

> In the list view, select the public folder that you want to mail-enable or mail-disable.

> In the details pane, under Mail settings, click Enable
oDr isable.

> A warning box displays asking if you're sure you want to enable or disable email for the public folder.
Click Yes
